Linen Care and Handling

- When using candles, please remember to snuff, not blow the candles out to avoid permanent wax damage. Candles should always be in a candle holder to prevent heat or wax damage to the linen.
- Our specialized linen team takes care of all laundering needs for your convenience. After use, simply shake out the used linens to remove all debris and place them in the linen bags provided. Damp linens should be air dried prior to placing inside the linen bags to eliminate potential damage to the fabric.
